Place*

Project Architect

Wiley Wilson | Atlanta, GA June 2017-Present

As the only licensed architect in the Atlanta office, my focus ranges from the Federal with FAA and DOD to the State and local governments and private work in the region.

Project Architect

Greenberg Farrow | Atlanta, GA August 2016-May, 2017

In charge of the Michael's Retail account nationally which involves managing all projects, their prototype and being a point of contact for the client. I also serve as the Revit leader for the office, focusing on several projects at one time, which includes industrial and commercial projects.

Project Architect

The Preston Partnership | Atlanta, GA December 2014-July 2016

Focus on Multifamily, Mixed Use, and Retail projects nationwide. Highlight project is Apex II in downtown Los Angeles, CA, \$100+ million budget, 28 Stories, 342 unit multifamily high-rise with retail on ground level, and three levels of underground parking deck.

Architect

Mason & Hanger Inc., A Day & Zimmermann Company | Lexington, KY
October 2011-December 2014 (Architect) | June 2006-2011 (Arch. Intern)

Stamped several projects across the country specializing with Federal Government projects. Communicating with clients regularly, managing projects successfully from start to finish, on time, and within budget is something I have been able to accomplish with several ACASS awards and SUCCESS awards being awarded. Became a Bayer Material Sciences (Fortune 500 company) Contractor to support specific projects at their site. Project Manager for an RFP package for several building modifications at Fort Hood, Texas with an overall budget of \$1.8 million.

Mechanical Designer

Mason & Hanger, A Day & Zimmermann Company (with ECM) | Kingsport, TN
January 2014 – April 2014

Assisted Mason & Hanger's sister company ECM, with the Day & Zimmermann, Inc and relocated to the Eastman Chemical Company, in Kingsport, TN where I assisted the Mechanical Department with field investigations throughout the chemical plant, designing for new and replacement mechanical systems in hazardous locations, while obtaining Hazmat Certification training, Coal Gasification Training, and Wastewater Treatment training for all the various hazards on site.

Graphic Designer

Archvision | Lexington, KY March 2004 – October 2006

Designed and created 3D & 2D software products with the .rpc extension, Rich PhotoRealistic Content (RPC) that are found in renderings throughout the world.

End Resume

Neil X. Esser, RA, LEED AP BD+C, NCARB, CDT [1]
